BEFORE IT IS BORN.

Some Startling Statements of Gen_ eral Interest.

Dr. Oliver Wendell Holmes, on being asked when the training of a child should begin, replied, "A hun-dred years before it is born." Are we to infer from this that this

generation is responsible for the condition of the race a hundred years from now?

Is this wonderful generation the nat-

ural result of the proper diet and med-icines of a hundred years ago? It is conceded in other lands that most of the wonderful discoveries of the world in this century have come from this country. Our ancestors were reared in log cabins, and

suffered hardships and trials.

But they lived and enjoyed health to a ripe old age. The women of those days would endure hardships without apparent fatigue that would startle those of the present age.

Why was it?

startle those of the present age.

Why was it?
One of the proprietors of the popular remedy known as Warner's safe cure, has been faithfully investigating the cause, and has called to his aid scientists as well as medical men, impressing upon them the fact that there cannot be an effect without a cause. This investigation discloses the fact that in the olden times the fact that in the olden times simple remedies were administers compounded of herbs and roots, which were gathered and stored in the lotte of the log cabins, and when sickness came on, these remedies from nature laboratory were used with the best

What were these remedies? What were they used for? After untiring and diligent search they have on tained the formulas so generally used for various disorders.

Now the question is, how will the Now the question is, how will the olden time preparations affect the people of this age, who have been treated, under modern medical schools and codes, with poisoners and injurious drugs. This test has been carefully pursued, until they are convinced that the preparations they now call Warner's Log Catan remedies are what our much abused systems required. systems required.

Among them is what is known as Warner's Log Cabin sarsaparilla, and they frankly announce that they do not consider the sarsaparilla of so much value in itself as it is in the much value in itself as it is in the combination of the various ingresiients which together work marvelously upon the system. They also have preparations for other diseases, such as "Warner's Log Cabin cough and consumption remedy," "Log Cabin hops and buchu remedy," "Warner's Log Cabin hair tonic." They have great confidence that they have a ture for the common disease of catarrh, which they give the name of "Log which they give the name of "Log Cabin rose cream." To Cure Smallpex.

A correspondent of the Stockton (Cal.) Herald speaks as follows concerning the smallpox and its remedy:

"This remedy, which has been used, to the writer's certain knowledge, in hundreds of cases, will prevent or cure smallpox, though the pittings are filling. When Jenner discovered cowpox in Englaud, the world of science hurled an avalanche of fame upon his head; but when the most scientific school of medicine in the world-that of heeded. It is as unfailing as fate, is harmless when taken by a well scarlet fever, here it is as I have child, smaller doses, according to age. If counties would compet physicians to use this there would be no need of pest houses. If you value advice and experience, use this for that terrible disease."

BAKER CITY, Nov. 19.—The Democrat gives this account of a most bloody duel between two brothers: "A horrible duei between the Hutchison brothers took place at Blackfoot. A feud existed between the two brothers, John and James, for some time. James had threatened to shoot John on sight, and they met in a billiard hall. Both pulled their revolvers and began firing simultaneously. Four Jured by the accident. shots were exchanged and John turned and ran down the street, the blood streaming from a wound in the side of the neck. James fell to severe cold, attended with a disthe side of the neck. James fell to the floor on his face while the blood streamed out of a gastly wound in the temple, the ball came out at the base of the brain, which cozed out through the hole made."
